

COURSE DATASHEET

Semester:	2014/15/1
Course:	Machine Industrial Technologies
Code:	VEMKGEB312G
Responsible department:	Institute of Mechanical Engineering
Department code:	MKGEI
Responsible instructor:	dr. Pál Horváth

Course objectives:

The students will be able to apply in practice the informations given about the following fields.

Course content:

- Introduction in machining technology.
- The structure of the machining technologies.
- Classification of the manufacturing processes.
- Basics of the cutting procedure.
- The mechanism of cutting. Classification of the cutting tools.
- Geometry of the cutting tools.
- Tool life and materials. Turning, milling, shaving.
- Finishing.
- Grinding.
- Machine tools
- The quality and economics of the machining technologies.
- Optimal machining parameters.

Requirements, evaluation and grading:

1 test paper + 1 Laboratory report.

Required and recommended readings:

Bálint L.-Gribovszki L.: A gépgyártástechnológia alapjai, Bp., TK. 1979.
