

SUBJECT DATASHEET

Semester:	2009/10/1
Subject:	Sessional Examination In Physical Chemistry
Code:	VETKFK23X5A
Responsible department:	Department of Physical Chemistry
Responsible department code:	MKFK
Responsible lecturer:	dr. András Dallos

Educational objectives:

Conclusion of the physical chemistry group of subjects by a comprehensive exam.

Detailed content of the subject:

Contents of the subjects Physical Chemistry I-II, Problem Solving Practice and Laboratory Practice in Physical Chemistry.

Requirements:

The examination consists of two sections: an oral and a written one. If the written part is not successful, the oral exam starts with a numerical example.

Required and suggested references:

1. Liszi, J.: Fizikai kémia, Veszprém, 1993. Kézirat. 2. Liszi, J., Ruff, I., Schiller, R., Varsányi, Gy.: Bevezetés a fizikai kémiába, Muszaki Könyvkiadó, Budapest, 1993. 3.
