

COURSE DATASHEET

Semester:	2016/17/1
Course:	Thesis II.
Code:	VEMKAMB1XXS
Responsible department:	Institute of Materials Engineering
Department code:	MKSI
Responsible instructor:	dr. Éva Makó Kristófné Dr.

Course objectives:

Students get acquainted with the selected task of thesis. Students get familiar in related literatures, experimental works, and examination methods, as well as prepare thesis about their results. The task of thesis can change year by year.

Course content:

The students get acquainted with literature related to Thesis, make experimental work and prepare Thesis.

Requirements, evaluation and grading:

The preparation and submission of Thesis.

Required and recommended readings:

Literatures related to the Thesis.
