UNIVERSITY OF PANNONIA

COURSE DATASHEET

Semester:	2013/14/2
Course:	Thesis
Code:	VEMKMEF1XXS
Responsible department:	Institute of Physics and Mechatronics
Department code:	MKFI
Responsible instructor:	dr. Zoltán Gugolya

Course objectives:

Preparation of the thesis.

Course content:

In the Course of Mechatronics Engineer Assistant the thesis work is a study and solving of a technical problem of which is related to a definite, possibly actual practical (industrial) problem of mechatronic engineering.

Requirements, evaluation and grading:

The supervisor gives a grade for the practical work of thesis.

Required and recommended readings:
