

## COURSE DATASHEET

<b>Semester:</b>	2014/15/2
<b>Course:</b>	Environmental Chemistry
<b>Code:</b>	VEMKAKM112N
<b>Responsible department:</b>	Department of General and Inorganic Chemistry
<b>Department code:</b>	MKAK
<b>Responsible instructor:</b>	dr. Ottó Horváth

---

### Course objectives:

Introduction of chemical processes spontaneously taking place in the nature, transport and biogeochemical cycles of important elements, as well as impacts and transformations of man-made pollutants.

### Course content:

- Transport processes and chemical reactions.
- Distributional equilibria, redox equilibria.
- Hydrolysis processes, complex formation equilibria.
- Methylation reactions in the environment.
- The environmental chemistry and biogeochemical cycles of carbon, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of nitrogen, anthropogenic impacts..
- The environmental chemistry and biogeochemical cycles of oxygen, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of phosphorous, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of sulfur and arsenic, anthropogenic impacts..
- The environmental chemistry and biogeochemical cycles of tin and lead, anthropogenic impacts..
- The environmental chemistry and biogeochemical cycles of zinc and cadmium, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of mercury and chromium, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of manganese, anthropogenic impacts.
- The environmental chemistry and biogeochemical cycles of iron and copper, anthropogenic impacts.
- Transport processes of man-made pollutants (chemodynamics).
- Spontaneous transformations of pollutants in natural environments.

### Requirements, evaluation and grading:

Written examination. 50% ought to be reached for a pass mark

### Required and recommended readings:

Butcher, S.S. et al. Global Biogeochemical Cycles, Academic Press, London, 1992.

# UNIVERSITY OF PANNONIA
